Delicious food for those with good taste

Given the importance of consuming healthy fish and food ingredients in people's food basket, Tohfe brand is a masterpiece. It strives to develop the culture of consuming healthy food in the country. By utilizing the freshest ingredients and the most advanced processing and quality control facilities, along with the full supervision of food industry experts and the selection of the best raw materials. The upcoming pages aim to introduce the achievements and efforts of the Taha brand in these years, so that the people of our country, with awareness and confidence in the quality of products, like all these years, accompany us in presenting health as a gift to Iranian families.

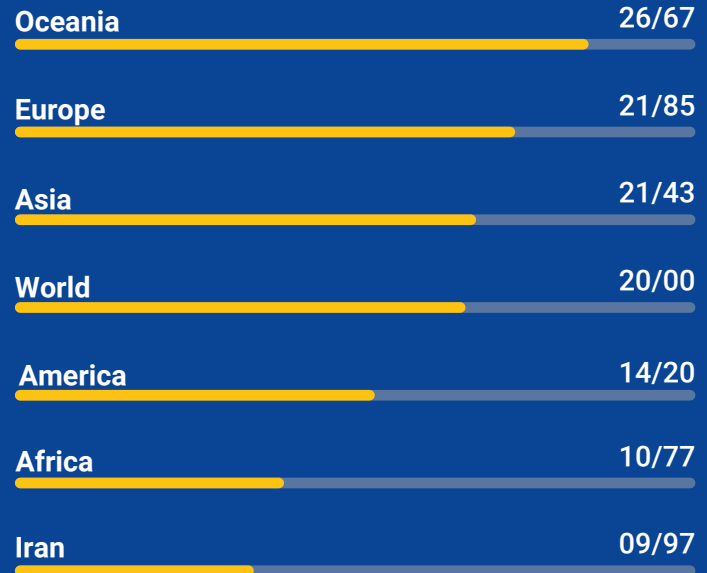

- Aid in prevention and management of depression and Alzheimer's.
- Contains iodine for increased intelligence quotient and weight control.
- Reduces the risk of heart attacks.
- Abundant in high-quality protein with easy digestibility.
- Protects skin's radiance and softness.
- Anti-inflammatory effect due to Omega-3.
- Regulates and strengthens the nervous system.
- Contains easily absorbed iron in the digestive system for blood production.
- Protects bones and teeth with fluoride and Vitamin D.

Fish contains vitamins E, K, D, B, A; high-quality protein; essential minerals such as phosphorus, calcium, iron, selenium, magnesium; fluoride; and most importantly, omega-3 polyunsaturated fats. Experts strongly recommend including fish in the diet of every family at least twice a week.

● Per Capita fish consumption (kg)
